1.	Independent Custody Visitors entering cells in pairs to introduce themselves to detainees to ascertain if they wish to speak to them about their welfare whilst in police detention. Issues discussed will be recorded on a visit report form by the custody visitors at the time of the visit.	<p>The detainee may physically attack custody visitors causing them injury or harm.</p> <p>Reasonably foreseeable injury – punch to face or punches and kicks to other parts of the body. Forcibly pushing custody visitor out of the way causing them to fall. Writing implement being snatched out of the hand of the custody visitor and used to cause injury.</p> <p>Reasonably foreseeable worse case injury – blindness caused by pen being stabbed into eye.</p>	H 3	<p>2 x Custody visitors</p> <p>1 x Custodian</p> <p>1 x Detainee</p>	<p>All custody visitors and custodians made aware of visiting procedures (including self introduction) and this risk assessment.</p> <p>All detainees risk assessed when booked into custody. At the start of a visit custody visitors made aware of any potentially violent / aggressive detainees. Custody Sergeant will determine whether to deny access on health and safety grounds.</p> <p>Custodian always in attendance remaining present just outside cell and out of sight of detainee at all times.</p> <p>Custody visitors made aware of the location of panic alarm trigger points. Strip alarms fitted along cell corridors can easily be activated to summon assistance from other personnel present within a suite.</p> <p>Custodians trained in first aid.</p> <p>Custody visitors instructed to stand between a detainee and the cell door for quick egress if necessary.</p> <p>Custody visitors instructed not to hand their pen over to detainees and to keep it in their possession at all times.</p>	L 1	M 3
